PROFESSIONAL SUMMARY

Entry-level Web Developer and B.Tech Computer Science candidate (2026) with freelance client delivery experience and hands-on expertise in HTML5, CSS3, JavaScript, and responsive UI design. Successfully built and deployed production websites for real clients across digital marketing and retail industries. Proficient in Git-based version control, prompt engineering, and AI-assisted development. Seeking an entry-level software development or web development role to drive impactful, user-centred solutions.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), HTML5, CSS3, SQL

Web Development: Responsive UI Design, DOM Manipulation, CSS Animations, Cross-browser Compatibility, Website Deployment (Vercel)

Tools & Platforms: Git, GitHub, VS Code, Vercel, Google Maps API Integration

Concepts: Object-Oriented Programming, Database Querying, Prompt Engineering, AI-Assisted Coding, Version Control, Client Communication, Freelance Project Management

FREELANCE EXPERIENCE

Freelance Web Developer

Remote

Self-Employed

- **Designed and launched** D-M Agency "a digital marketing agency website with multi-section layout (services, portfolio, contact) and strong visual branding to support client lead generation.
- **Built and deployed** GRR Textiles & Fashions "a fully responsive business website with product category sections, customer testimonials, and Google Maps integration to drive in-store footfall.
- **Managed end-to-end delivery** for both clients "from requirement gathering and mobile-first responsive UI implementation to GitHub version control and live deployment on Vercel.

PERSONAL PROJECTS

Image Editor Web Application | HTML5, CSS3, JavaScript, GitHub | [GitHub Link](#)

- **Built** a fully browser-based image editor supporting 6+ operations "crop, zoom, blur, brightness, sepia, and dark mode" with zero server-side dependencies.
- **Architected** a modular codebase separating UI components from business logic, improving maintainability and readability for future feature extensions.
- **Accelerated** feature delivery by applying structured prompt engineering and AI-assisted coding to design layouts and implement core functionality efficiently.

Strong Password Generator Application | HTML5, CSS3, JavaScript, GitHub | [GitHub Link](#)

- **Developed** a secure, client-side password generator with fully customizable parameters "length (8–64 chars), uppercase, lowercase, numerals, and symbols" using vanilla JavaScript logic.
- **Implemented** one-click copy-to-clipboard functionality via the Clipboard API, eliminating manual transcription errors and improving user experience.
- **Optimized** conditional logic through prompt engineering, resulting in cleaner, more concise and readable code.

EDUCATION

Mohan Babu University

Tirupati, Andhra Pradesh, India

Bachelor of Technology (B.Tech) – Computer Science and Engineering

Expected: May 2026

- **CGPA: 8.86/10** | Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Web Technologies, Computer Networks

ADDITIONAL INFORMATION

Interests: Full-Stack Web Development, UI/UX Design, Open-Source Contribution, AI-Assisted Engineering

Languages: English (Professional Proficiency), Telugu (Native)
